

### **Situation Summary**

- SOC / Inland REOC remains activated in support of 2014 Drought
- No significant precipitation is forecast for the next 7 days
- No significant Weather Watches or Warnings are in effect
- Natural Gas Outage Needles, San Bernardino County
  - Caused by a valve being turned off
  - City and County are not activated
  - Approximately 4,912 residents affected including the Fort Mojave Indian Tribe
  - Southwest Gas is on-scene bringing each house back on-line. No ETR
  - No hospital issues; no AFN issues

### **WEATHER**

#### **WEEK AHEAD WEATHER:**

### **Week Ahead Weather Highlights**

#### **Thursday**

- \* Elevated fire weather concerns across southern California mountains and valleys
- \* Winds
- \* Low humidity

#### **Friday-Sunday**

\* Continued warm and dry through the period

#### **Monday-Wednesday**

- \* No significant hazards expected
- \* Increasing chances of rain northern third of state by Wednesday Trace to 0.50 inches

#### **Thursday-Saturday (Outlook)**

- \* Rain and higher mountain snow likely statewide Rainfall amounts up to 2 inches.
- \* Greatest amounts northern third and the Sierra

### California - North Area 7 Day Significant Fire Potential

Issued: Wednesday, Feb 19, 2014

Parameters: None 🗸

Predictive Service Area	Tue	Wed	Thu	Fri	Sat	Sun	Mon	Tue
	Feb 18	Feb 19	Feb 20	Feb 21	Feb 22	Feb 23	Feb 24	Feb 25
NC01 - North Coast								
NC02 - Mid Coast								
NC03A - Bay Area-Marine								
NC03B - Diablo/Santa Cruz Mtns								
NC04 - Northwestern Mtns								
NC05 - Sacramento Valley								
NC06 - Northeast CA								
NC07 - Northern Sierra								
NC08 - East Side								

#### Weather

A weather system moved rapidly across North Ops overnight with some light precipitation. That system will soon exit the region after some lingering morning showers in the eastern portion of the Geographic Area. Over the next few days high pressure will gradually take over the region's weather pattern. Conditions are expected to be dry well into next week. There will be a few periods of relatively moderate north/offshore winds, but mostly winds will be NW and not have as much drying power as previously expected. Temperatures will become on the order of 8-12 degrees above seasonal normal for the warmer inland areas. There are indications that more wet weather may arrive late next week, but confidence in that is low at this time.

#### **Fuels/Fire Potential**

Legend

Fuels in all PSAs will be in the **Moist** category throughout the 7-day period in spite of some drying under the high pressure and some periods of north/off shore winds. For prescribed burning, dispersion conditions will be somewhat variable this week, but trending toward less active dispersion overall this weekend into early next week.

### High Risk Events

Lightning

#### Weather

#### \*\*\*Strong winds today and tonight\*\*\*

A dissipating trough will generate gusty winds over many areas today, especially during the afternoon hours. Strong north winds of 25-40 mph with gusts over 50 mph will be possible today and tonight across Santa Barbara County, in northern Los Angeles County near the I-5 Corridor and near the Cajon Pass. In addition, strong west and northwest winds will occur today across the Kern County Mountains northward into the Sierras where similar wind speeds will be possible. Expect slightly cooler readings over most areas today, despite much more afternoon sunshine. The north winds will decrease late tonight, but some northeasterly offshore winds of 15-25 mph will be possible over portions of Southern California early Thursday morning. These winds should decrease by Thursday afternoon. Much warmer temperatures will return to Southern California and high temperatures will be close to 80 degrees Thursday across some of the inland valleys. Friday and Saturday may be slightly cooler due to a lack of offshore flow and high cloudiness, but by Sunday and Monday, look for high temperatures to be 10-15 degrees above normal once again. Long range models indicate a storm system may arrive around the 27th which may finally bring some wetting rains to much of the area.

#### **Fuels/Fire Potential**

Large fire potential will be elevated over the windy areas during the next 36 hours. ERC values have increased and are now close to values which were seen in January prior to the cooler weather a week ago. Very rapid rates of spread and long range spotting are likely if a start occurred in some of the windier passes through Thursday morning.

### **CAL OES ACTIVATIONS**

- The SOC is activated at Level 2 in support of the Drought State of Emergency from 0800-1700 hours daily. The Inland REOC is activated at Level 2 from 0800-1700 Monday through Friday or as needed. The Southern REOCs is activated at Level 1.
- The Santa Barbara County OA EOC is activated at Level 2 to be handled by the duty officer for the purpose of monitoring activities and gaining situational awareness. The operational period is 0800-1700 hours.

### SIGNIFICANT EVENTS/ACTIVITY

#### <u>Cal EOC Incident – 2014 Drought</u> (Updated)

 Governor Edmund G. Brown Jr. joined Assembly Speaker John A. Pérez, Senate President pro Tem Darrell Steinberg and administration officials today to announce emergency drought legislation at the Governor's Office of Emergency Services, State Operations Center, 3650 Schriever Avenue, Mather, CA 95655

#### **Situational Summary:**

• The lack of winter rain and snowfall has resulted in extremely dry conditions in many parts of the State. Reservoir levels are down significantly from where they should be on average for this time of year. If conditions continue without substantial rainfall, severe impacts to municipal water supplies, agriculture (plants and livestock) and firefighting capabilities are likely in store for the State for several months. Negative economic impacts will also result. The Governor has established a Drought Task Force to prioritize State actions needed to address these conditions. Furthermore, on January 17, 2014, Governor Edmund G. Brown proclaimed a State of Emergency and directed state officials to take all necessary actions to prepare for these drought conditions. The State Operations Center (SOC) is activated to implement objectives in support of the Governor's priorities.

#### **Situational Summary: (Cont.)**

• As a result of the drought DWR has informed the customers of the State Water Project (SWP) that deliveries in 2014 will be discontinued if current dry conditions persist. Deliveries to agricultural districts with long-standing water rights in the Sacramento Valley may be cut 50 percent (the maximum permitted by contract) depending upon future snow survey results. Storage in key reservoirs now is lower than at this time in 1977, one of the two previous driest water years on record. While additional winter storms may provide a limited boost to reservoir storage and water deliveries, it would need to rain and snow heavily every other day from now until May to get us back to average annual rain and snowfall. The allocation may change depending on future storm events.

### <u>Cal EOC Incident – 2014 Drought</u> (cont.)

#### **Current Conditions:**

**Recent Precipitation:** Very little precipitation fell in California over the last week. Precipitation totals (in inches) for the 24 hour period February 18 to February 19 are below:

Precipitation Totals (inches)	2/18 – 2/19/2014 24 hour total
Folsom Dam: 0.00"	Pollack Pines: 0.00"
Fresno: 0.00"	Redding: 0.00"
Hetch Hetchy Reservoir: 0.00"	Sacramento: 0.00"
Los Angeles: 0.00"	Shasta Dam: 0.00"
Modesto: 0.00"	Willits: 0.00"
Oroville: 0.04"	

While Northern California received its largest rainstorm in 14 months over the previous weekend, the storm had minimal effect on California's drought conditions and reservoirs' water levels remained largely unchanged.

**Near-term Outlook for Precipitation:** Dry weather is expected across most of California this week, with a high-pressure front building towards the end of the week that will bring above normal daytime temperatures. A weak storm is possible later in the week in parts of Northern California, although it is not expected to produce significant precipitation.

\*\* Heavy rain and snow would have to fall throughout California very frequently from now until May to reach average annual rain and snowfall. Even with such precipitation, California would remain in drought conditions, due to low supplies from the two previous dry years.\*\*

**Inland Region** - The Drought Coordination and Briefing call for Operational Areas, Native American Tribes and the Governor's Office of Emergency Services Inland Region REOC continues to be held at 1100 hours each Monday. Due to the holiday next week, the regularly scheduled conference call was held today, Wednesday 02/19/2014 at 1100 hours. The Monday at 1100 hours calls will resume thereafter.

### **Drought Meetings**

### **Inland Region**

The Drought Coordination and Briefing call for Operational Areas, Native American Tribes and the Governor's Office of Emergency Services Inland Region REOC continues to be held at 1100 hours each Monday.

02/18/14 Butte County - The Inland Region Administrator and Inland staff participated in the Butte County Drought Task Force meeting in Oroville and the CDFA/USDA drought forum in Palo Cedro, in a continuing effort to gather information on the drought emergency and related impacts.

02/18/14 Stanislaus County - The Inland Region Field ESC attended the OA first Drought Task Force meeting on Tuesday February 18, 2014. There was good participation from water agencies, agricultural agencies, cities, and county departments. Information was shared and meetings will continue.

02/18/14 Madera and Stanislaus Counties - Inland Region staff participated in Drought Task Force meetings. Relevant updates will be posted today to Cal EOC.

### SOUTHERN CALIFORNIA SIGNIFICANT ACTIVITY

Natural Gas Outage Needles, San Bernardino County 2/19/14 at 0846 hours

- The San Bernardino Operational Area is experiencing a natural gas outage due to a valve being switched off.
- Impacted areas are the City of Needles, the Topock geographic area, and the Fort Mohave Indian Tribe on the California side.
- The city of Needles has 4,912 residents and 1,940 households. The Fort Mohave Indian Tribe
  has a population of approximately 208 on the California side. The gas outage is affecting all
  residents and businesses in the City of Needles totaling 2019 connections.
- Southwest Gas currently has 200+ employees going door to door to shut off all the meters.
   Once the meters are shut, they will re-pressurize the system, and then the crews will go to each individual meter, open them and relight the pilot lights. At this time there is no estimated time of completion. The City of Needles notified its residents via reverse 911.
- Southwest Gas has notified the public via a press release on their website which also includes an outage map.
- Total impacts to the medical community are unknown.
- Needles Desert Community Hospital has reported they don't have hot water but that their kitchen is electrically powered; they are able to prepare meals for their patients.
- Currently there are no reported AFN needs or issues.
- The City of Needles is not activated, they are monitoring the situation.
- San Bernardino County is not activated and they are monitoring the situation via their duty officer.
- Cal OES Southern Region remains activated at Level 1, Duty officer status.

### **CAL OES OPEN MISSIONS**

#### **Non-Incident Related Missions**

**2014-SOC-2111** Mission is to test the Cascadia Subduction Zone (CSZ) air bridge concept by air transporting 7 passengers from OES and 1 CANG logistics planner on 13 May 2014 from Mather to the State Staging Area (SA) in Redding, to one POD in Del Norte and one POD in Humboldt, to the Redding State SA, and return to Mather. Passengers will discuss actions at the Redding SA and at each OA POD while they are at each location. The air bridge is a critical component to CSZ response and recovery. It is imperative this concept is tested to ensure response teams can be successfully transported into the effected region and the affected Operational Areas' are able to receive aircraft at designated PODs.

**2014-LAW-2069** Solano County Sheriff's Department is requesting California National Guard (CNG) tents to support classes and vendor displays at SAREX 2014 (A joint coordination exercise) scheduled for 9/05-07/2014 in Napa County. Setup of requested resources will begin on 9/04/14 and tear down will occur on 9/08. The exact scope of work will be determined as the planning cycle continues. There will also be a request for communications support which may be a combination of CNG and Cal OES Telecommunications resources. Mission number pulled to allow CNG to begin determining what assets may be available to assist. At this time the specifics of the request are deemed "to be determined" (TBD).

### **Non-Incident Related Missions (Cont.)**

#### 2014-LAW-2163

**Current: 2/15/14** - Mission anticipated to last until 2/25/14.

**Situation:** The CNG's 95th CST will assist the Dept. of State's Diplomatic Security Detail with planning and executing Joint Hazard Assessment Team (JHAT) Operations for a foreign dignitary's scheduled appearances.

#### 2013-LAW-1797

Current: The search was scheduled to resume on 2/18/2014.

**Situation:** Butte County has requested this mission re-opened as they will resume the search for a possible homicide victim. The search will resume with assistance from the Alameda County Sheriff's Department who will be providing an underwater Remote Operated Vessel (ROV) with video and sonar capabilities to search areas of Lake Oroville. Alameda County and Butte County are coordinating mission requirements and will advise on final details regarding deployment of teams to the area.

**2014-LAW-2235** On 2/19/14, Tulare County Sheriff's requested resources to assist in SAR of missing at risk female from San Diego missing since last Sunday. Resources requested include: Helicopter support, cadaver and scent dogs. The Cal OES Law Enforcement Duty Officer is coordinating the resources.

#### CAL OES CLOSED MISSIONS

#### **Drought Related**

**2014-Coastal-2098** Mendocino County, Redwood Valley Water District is in need of two pumps and 6"water pipe due to drought conditions. These pumps will be used to inter tie between Redwood Valley Water District and Capella Water to provide water supplies to the 4,000 people who live in the community. The reason for this request is that in about a month the intake will be above the water line, but there is a significant volume of water below the intake. Redwood Valley Water District has been identified as 1 of the 3 critical. Cal OES CDO is coordinating this resource. The Operational Area is trying to rent the pumps, if Cal OES needs to revisit the mission request at a later time we will reissue. Mission Closed.

#### **Non-Incident Related Missions**

**2014-LAW-2229** On 2/19/14, Department of Justice requested Cadaver dogs for Stanislaus County Sheriff's Office. The Cal OES Law Enforcement Duty Officer is coordinating the resources. Update 1640 hours: Dogs were deployed and searched without success. No further response anticipated. Mission Closed.

### **CAL OES DEPLOYMENTS**

### **EMAC Colorado** (No Change)

**2014-SOC-2101** California deployed a Recovery Specialist, Clyde Muraoka, to Colorado as requested via EMAC #510-RR-2388 to assist in flood recovery operations. The coordination process is complete. Personnel have arrived safely and reported for assignment. The deployment began on 2/09/14 with a confirmed demobilization date of 3/12/14.

### **Drought 2014 Incident (New)**

February 19: Lidia Armas (Emergency Services Coordinator for Individual Assistance) has been deployed to Salinas for a California Department of Food and Agriculture / United States Department of Agriculture (CDFA / USDA) drought meeting. Anticipated return: February 20.

February 19: Katrina Limon (ESC for IA) has deactivated her deployment of 2/18 to Shasta for a CDFA / USDA drought meeting.

February 20: Theresa Gonzales (ESC for IA) returns from Southern California on 2/20 and then will immediately drive to Fresno for a CDFA /USDA drought meeting. Anticipated return: February 21.

### **CAL OES DEPLOYMENTS (Con't)**

### **Drought 2014 Incident (Con't)**

#### Training (New)

February 19: Mary Ann Johnson (Senior ESC for IA) and Theresa Gonzales (ESC for IA) have been deployed to Glendale in So Cal as CSTI Recovery course instructors. Anticipated return for Mary Ann: February 19, 2014. Anticipated return for Theresa: February 20, 2014.

### **UPCOMING EVENTS, TRAINING, EXERCISES**

### Diablo Canyon Power Plant, Rehearsal / Full Scale Exercise

Diablo Canyon Power Plant in San Luis Obispo will be hosting two full scale Hostile Action Based exercises this Spring. A dress rehearsal exercise will be held on April 16, 2014 and a FEMA evaluated exercise will held on May 21, 2014. This is part of the required biennial demonstration of our ability to protect the public from a radiological incident at the nuclear power plant.

#### 2014 Golden Guardian

Planning is currently underway for the Governor's 2014 exercise series. The series will test the California Cascadia Subduction Zone Earthquake and Tsunami Response Plan developed by FEMA Region IX and Cal OES

- Logistics Tabletop Exercise March 5, 2014
- Logistics Rehearsal of Concept Drill April 2, 2013
- REOC Communications Functional Exercise March 27, 2014

### **The Tsunami Warning Communications Test**

Live code, activating EAS will be on the North Coast in Del Norte, Humboldt, Mendocino Counties on Wednesday 3/26/14 (between 11:00 and Noon PDT).

### Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
